**[REDACTED]** came to me before thanksgiving and told me that she had been raped. I told her she needed to get tested for STDs. I didn't report the rape because she said she had already reported it. She came to meet with me again today to talk about filling out an Incomplete form for **[REDACTED]**. While meeting, I asked how she was doing and if the guy had been sent off campus yet. No, she said, he is still here. I was shocked. She then told me that she had been tested for STDs and she tested positive for HIV. It makes me really worried to think that the guy who gave her HIV is still on this campus.
